

**REMARKS**

Claims 8, 9, 11, 12, and 14-22 are canceled. Claims 1-7, 10 and 13 are in the application for consideration.

The Examiner has required restriction under 35 U.S.C. §121 between claims 1-10, 13, 16, 19 and 21 (Group I – drawn to a substrate susceptor), and claims 11, 12, 14, 15, 17, 18, 20 and 22 (Group II – drawn to a method of deposition). In addition, the Examiner has divided the claims into ten species.

Applicant hereby elects without traverse Group I and Species 3. Claims 3-6 are readable thereon, and the Examiner states claims 1 and 13 are generic. Without agreeing to the propriety of the Examiner's actions or statements, the undersigned asserts that claims 1, 3-3 and 13 as a minimum, should therefore be substantively examined for patentability in this application, and action to that end is requested.

The specification has been amended to correct a typographical error. Entry of the same is requested.

Respectfully submitted,
